DGR PLACE 7TH IN TUFF TRUCK CHALLENGE 2006

10, April 2006

Team DGR backed up their impressive 5th place in 2005 with a 7th in 2006.

With Tuff Truck Challenge being the largest 4wd motorsport event in Australia, entrants come from far and wide to strut their stuff. To whittle the amount of competitors down, a public voting system has been implemented. This year, DGR placed 6th in the voting which determined the running order for the event.

After an early roll in the Mud Stage on Friday night, the team spent a long night cleaning and checking electrical circuits. With average scores in the non driving stages (Engineering, Show & Shine, Travel Ramp and Approach & Departure) the boys were playing catch up all weekend. With consistent top 10 results in the driving stages, team DGR managed to claw their way back.

By the end of the weekend, much to the boy's amazement, team DGR had placed equal 7th with Germon Racing.

Considering the first 6 places consisted of 5 with portal axles and 3 with rear steer, the road driven Hilux had a great performance against some formidable competition.

Can't wait for next year!
